UK Record Status ruling

As you are probably aware Archery GB ruled that all Archery GB (GNAS) record status shoots must have an equipment inspection..

This means that any archer shooting at any record status shoot in the UK will have to get their equipment checked before the shoot starts.

Prior to assembly you must bring your equipment (this includes bow, arrows and tab) to a judge; he / she will look at it and tell you if there is any problem.

Please remember that it is the archers responsibility to ensure that he / she has the correct equipment.

To avoid any delay we would ask that you arrive in sufficient time to comply with this ruling.

Thank you.
